## The General Assembly

*Preambulatory clauses start with "-ing" words (which are underlined or italicized- doesn't matter just keep it consistent!!) and end with a comma. They recognize past action & the current situation, and frame the context of the resolution.*

**Reminding** all nations of the celebration of the 50th anniversary of the Universal Declaration of Human Rights, which recognizes the inherent dignity, equality and inalienable rights of all global citizens;  
**Reaffirming** its Resolution 33/1996 of 25 July 1996, which encourages Governments to work with UN bodies aimed at improving the coordination and effectiveness of humanitarian assistance;  
**Noting** with satisfaction the past efforts of various relevant UN bodies and nongovernmental organizations;  
**Stressing** the fact that the United Nations faces significant financial obstacles and is in need of reform in the humanitarian realm;

1. **Encourages** all relevant agencies of the United Nations to collaborate more closely with countries at the grassroots level to enhance the carrying out of relief efforts, including but not limited to:
  - a. General Assembly Committees;
    - i. SOCHUM
    - ii. ECOFIN
  - b. UN-HABITAT;
  - c. UNDP;

Where there is a "a." there must be a "b.!" Where there is an "i." there must be an "ii.!" It's just like, the rules of MUN-ism

*Operative clauses start with "-s" words (which are underlined or italicized- doesn't matter just keep it consistent!) and end with a semi-colon. They recommend (or take, depending on the committee) action, and are the meat of the resolution*

2. **Urges** member states to comply with the goals of the UN Department of Humanitarian Affairs to streamline efforts of humanitarian aid;
3. **Requests** that all nations develop rapid deployment forces to better enhance the coordination of relief efforts of humanitarian assistance in complex emergencies;
4. **Calls** for the development of a United Nations Trust Fund that encourages voluntary donations from the private transnational sector to aid in funding the implementation of rapid deployment forces;
5. **Calls** upon states to respond quickly and generously to consolidated appeals for humanitarian assistance; **and**
6. **Requests** the expansion of preventive actions and assurance of post-conflict assistance through reconstruction and development;

Some people put "and" after every clause instead of just at the end (like here). While not technically incorrect, it's annoying and ugly and I don't like it. It's up to you if you want to correct it!
